Rapid Baccarat is an exciting game which incorporates the traditional game of Baccarat but is played electronically. The game still involves a Dealer at a live table but all play is conducted at your own personal betting terminal. All of your favourite Baccarat betting options are still available but in a more relaxed and private environment.

GETTING STARTED

To join in on the excitement of Rapid Baccarat just insert money into the note acceptor on the terminal.

WHAT IS THE AIM OF THE GAME?

The aim of the game is to bet on which side gets closest to 9 before the countdown timer elapses. Betting options are 'Player', 'Banker' or 'Tie' plus any of the feature Side Bets indicated on the terminal.

Tens and picture cards (Jacks, Queens and Kings) count as zero, Aces count as one and all other cards count as their face value. For any total over 10, only count the last digit.

For example:

$$7+3=0$$

$$10+4=4$$

$$10+K=0$$

$$8+A=9$$

The closest hand to 9 wins.

HOW TO PLAY

Select the value of chips you would like to play with by touching one of the chip symbols at the top of the terminal screen (the terminal will default to the last chip selected). You may then place your virtual chips in the corresponding marked area/s on the terminal to place a bet. By clicking the screen area once, you will place one chip, twice, two chips and so forth. 'Player', 'Banker', 'Tie', 'Pair Bank', 'Pair Player', 'Dragon Bonus Bank' and 'Dragon Bonus Player' bets are the possible bets to wager.

A timer on the screen will count down to let you know how long you have before you must finish placing your bet/s. When the

countdown has finished, the screen will show 'No More Bets' and the game will be locked out. You will not be able to place or remove bets at this stage.

Once you have placed your bets the live dealer will draw the cards according to the Tableau, one set to the 'Player' and one set to the 'Banker' to determine a winner. The winning result is then communicated to your terminal which will automatically update on-screen. Only then will all winning results be paid and losing bets taken.

When you've finished playing, simply select the 'Cash Out' option on the terminal screen and a ticket will be printed for you to redeem for cash at our friendly cashier.

THE TABLEAU

The Table shown to the right applies after the first four cards (two to the Player, two to the Banker) have been dealt.

GUIDE TO CARD DRAW FOR PLAYER'S HAND

Player's Hand
(Total of first two
cards):

1,2,3,4,5,0	Draws a card
6-7	Stands (Player not dealt another card)
8-9	Natural/no further cards drawn to either hand

GUIDE TO CARD DRAW FOR BANKER'S HAND

When the first two cards total zero, one or two, the Bankers' hand draws a card. When the total of the Bankers' first two cards is three or more, the outcome depends on the third card drawn by the Player, as detailed below.

Banker's hand (total of first two cards):	Draws a card when Player's third card is:	Stands when Player's third card is:
3	1,2,3,4,5,6,7,9,0	8
4	2,3,4,5,6,7	1,8,9,0
5	4,5,6,7	1,2,3,8,9,0
6	6,7	1,2,3,4,5,8,9,0
7	Stands	
8,9	Natural/no further cards drawn to either hand	
0,1,2	Draws	

Banker draws on 0-1-2-3-4-5 when Player stands on 6-7 on initial deal. Banker must stand on 6 when Player has 6-7 on initial deal. No optional draws.

If the hand results in a tie, then no bets win or lose for that round. You may alter your bets prior to the next round of play commencing.
